

	Issues	Status
1.	In his case i have added the Category name, but not the arabic name -- the message should in this case be more specific. The above message is fine when neither is filled. In this case the error should be on the field to say the arabic name is missing or if arabic is filled hte english is missing.	Done ▾
2.	pagination does not work example link http://157.230.19.78/playlist/file/31001	Done ▾
3.	also the tab says Basic Tables ??? this should be the category/playlist name	Done ▾
4.	The data is all messed up -- these two categories on the main page dont have the right data. Can we do a full reset of backend data so we have the data matching with the excel file i had provided ? and all testing of creating new categories be done in one sub category so its easier to clean up ?	Done ▾
5.	The second category being shown here is incorrect -- not sure wher this came from -- it should be Tilawat-ul Quran	Done ▾
6.	when creating a new file - it doesnt let me upload image or url, only option is to give URL. need option to always be able to upload	Done ▾
7.	als the bread crum only shows the previous value - it doesn't show the full path	Done ▾
8.	i was on page 2 of wudu and cliked to play a file and it opened the right one, however, the main table went back to page 1	Done ▾
9.	You Tube link is not required - it didnt let me edit file	Done ▾
10.	when adding a category/playlist it shows only a few of the playlist	Done ▾
11.	the arabic font used - needs to be updated to the same font being used on the app. this is the wrong font.	Done ▾
12.	There is no login screen and no option to add new users	Done ▾
13.	Button should say "Update Category" not "Edit Category"	Done ▾
14.	can we make the upload file boxes smaller? i don't see why they need to be so huge?	Done ▾

	Issues	Status
15.	There is no login/logout feature for admin - when will that be added?	Done ▾
16.	edit playlist should show the parent category tree all the way to the top level home categories -- otherwise the user doesn't know which playlist they are editing	Done ▾
17.	when editing a category - i should be able to re-associate a category with a different sub-category in case i made a mistake	Done ▾
18.	Youtube Link data is missing.	Done ▾
19.	pagination does not work only for playlist section.	Done ▾
20.	When going from one page to the next the contents are changing but the serial number is not changing. This is confusing - instead of S. No. can we show id or rank number here?	Done ▾
21.	<p>There are two types of users right ?</p> <ol style="list-style-type: none"> 1. Users that will login from the app using ITS / Password (eventually with ITS One Login) and those i assume show up in the users list 2. Admin users -- that have been given access to the Admin pages. They have a separate admin password. I should be able to add admin users and set their password. 	Done ▾
22.	Ranking issue solved?	Done ▾
